Remarks

The applicant's reply filed September 04, 2007 to select the species 1 for examining in responding to the Office Action made June 04, 2007 with traverse.

Response to Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention.

Species 1, claims 2-17, 38 and 39; related to addressable lighting device (but not changeable address) including means for **only switching the addressable lighting device into a programming mode.**

Species 2, claims 19-33; related to addressable lighting device having electronic address being **changed or set via a non-mechanical switch.**

Species 3, claims 34, 35 and 40; related to method of programming addressable lighting device including switch means for switching **between** a programming mode and an operating mode.

Species 1, 2 and 3 relate as subcombinations usable together.

2. Applicant's election with traverse of claims 2-17, 19-35 and 38-40 in the reply filed on February 16, 2007 is acknowledged. The traversal is on the ground(s) that the independent claims of application are generic and do not cause distinct. The address can be changeable or static and, such features, However, are distinct and must be established in a different manner with different technique/circuitry supports. This is not found persuasive because **variations among the species 1-3 presented in a non obviousness manner** as noted above. Such unobvious variation between groups of claim inventions causes distinct inventions and leads to different search areas. **Therefore, the requirement is still deemed proper and is therefore made FINAL.**

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Allowable Subject Matter

4. Claims 2-17, 38 and 39 are allowed.
5. The statement of reasons for the indication of allowable subject matter has been provided in the previous action.

Correspondence

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

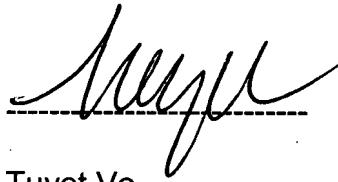

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
